SUMMARY

Front-end developer with nearly 3 years of experience, passionate and detail-oriented. Focused on creating intuitive, user-friendly interfaces, and committed to writing clean, efficient, and scalable code. I stay current with the latest web technologies and industry trends, with a deep passion for UI/UX design, aiming to craft visually compelling, highly functional interfaces that enhance user satisfaction.

WORK EXPERIENCE

Dec-2023 – present (Dec-2024)– Front-end developer (middle), Humandev IP Limited.
<https://seymo.ai/>

Project Description: A school management platform for accounting, attendance tracking, and communication with parents

Project Roles: Front-end developer (middle)

Responsibilities:

- Architected and developed a web application from scratch, ensuring a scalable and maintainable codebase, using modern techniques like FSD DRY and etc.
- Designed and implemented intuitive UI/UX interfaces, aligning with customer requirements and industry best practices
- Analyzed and integrated business logic into the application, ensuring seamless functionality and usability
- Conducted thorough testing and debugging to maintain high-quality standards throughout the development lifecycle
- Reviewed code for quality, performance, and adherence to best practices, fostering team collaboration and consistency
- Ensured cross-browser compatibility and responsiveness for optimal performance on all devices
- Optimized the display and interaction of large datasets, delivering efficient and user-friendly solutions
- Collaborated with stakeholders to gather requirements, translating them into actionable deliverables

Tools and Technologies: React / NextJS / TypeScript / TailwindCSS / shadcn/ui / RadixUI / i18next / Zustand / SWR / Tanstack Query / Tanstack Tables / Recharts / React-hook-form / Zod / YouTrack / GitHub

Mar-2023 – Dec-2024 – Front-end developer (middle), Humandev IP Limited. <https://seymo.ai>

Project Description: A platform for creating, assigning, and grading student tests, with tools for PDF generation, automated answer recognition from scans, and detailed reporting

Project Roles: Front-end developer (project lead)

Responsibilities:

- Managed the development team by creating and assigning tasks, monitoring progress, and ensuring deadlines were met
- Architected the web application, defining its structure and ensuring scalability and maintainability
- Designed and developed intuitive UX/UI, translating design concepts into functional, responsive code
- Contributed to the architecture of the database and APIs, optimizing data flow and system integration
- Oversaw the integration of key features, ensuring seamless functionality and a user-friendly experience

Tools and Technologies: React / NextJS / TypeScript / TailwindCSS / Zustand / SWR / React-hook-form / Zod / YouTrack / GitHub

Sep-2022 – Mar-2023 – Front-end developer (junior), Soft Group Solution. <https://softgroupsolution.com/>

Project Description: Internal dashboard

Project Roles: Front-end developer

Responsibilities:

- Designed and implemented reusable, modular components to ensure consistency and efficiency across the application, collaborating closely with design teams to align with UI/UX standards
- Developed and optimized basic layouts, ensure seamless functionality across devices

Tools and Technologies: React / JavaScript / TypeScript / HTML / CSS / TailwindCSS / Jira

Mar-2022 – Sep-2022 – Front-end developer (intern)

Project Description: A learning platform for creating and studying decks of flashcards to enhance knowledge retention and learning efficiency.

Project Roles: Front-end developer

Responsibilities:

- Translated Figma designs into responsive and functional web interfaces
- Integrated front-end components with APIs to ensure seamless data interaction
- Collaborated with the development team, gaining hands-on experience in a professional work environment

Tools and Technologies: JavaScript / TypeScript / React / Redux / Redux-Toolkit / HTML / CSS / SCSS / Styled Components / MUI / Storybook / Axios / Formik / React-router-dom / ESLint / Prettier
